1) **App Launch**
The user opens the shopping app, and the system loads the application.

2) **User Authentication**
The user logs in, signs up, or continues as a guest to access the app.

3) **Home Page**
The home screen displays categories, search bar, deals, and recommended products.

4) **Product Discovery**
The user searches for products or browses categories and applies filters or sorting options.

5) **Product Listing**
A list of products matching the search or category is shown.

6) **Product Detail Page**
The user views detailed information such as price, description, ratings, and delivery details.

7) **Cart**
The user adds products to the cart, updates quantity, removes items, or applies coupons.

8) **Checkout**
The user selects the delivery address and confirms order details.

9) **Payment**
The user chooses a payment method like UPI, card, net banking, wallet, or cash on delivery.

10) **Order Confirmation**
After successful payment, the system generates an order ID and confirms the purchase.

11) **Post-Order Actions**
The user can track the order, cancel it, request a return, or rate the product.
